CITY OF ROCK RAPIDS, IOWA  
FY 2024-2028 CAPITAL IMPROVEMENT PROGRAM  
ADMINISTRATIVE SUMMARY

## Objectives

The Capital Improvement Program (CIP) is a five-year plan to provide and maintain equipment and public facilities for the citizens and businesses of Rock Rapids, balanced against the availability of resources. The CIP is not a legal document or a commitment that obligates any current or future City Council to complete any of the projects contained therein. It rather provides an indication of the projects that might be completed, when they might be accomplished, and how they could be funded.

For the City Council and administrative staff, the CIP functions as tool that links development plans with available and projected financial resources. This involves prioritizing and scheduling projects, along with identifying specific financial resources for each project, to ensure that the necessary resources will be available for completion of those projects. The CIP clearly presents trade-offs that may occur in assigning priorities, and it facilitates financial and community planning, to incur debt only as needed and to adjust for changes in economic conditions.

For the general public, the CIP serves as a valuable information source. By identifying projects and timelines for the next five years, the CIP provides ongoing opportunity for comment and preparation, and it helps to prevent surprises. If someone has concerns, the CIP allows time for discussion, or if necessary, revision or change of plans. The CIP facilitates open government by making public the intentions of the City Council concerning capital investment and expenditure of public funds.

The CIP provides a long-term perspective that facilitates continuity and helps to prevent haphazard investment in capital projects that lack either adequate planning or public support. In addition, while City Councils and/or staff sometimes turn over, the CIP helps to bring incoming members up to date without having to start over. If a new member, or public citizen, inquires as to why a certain project is underway, the CIP provides documentation that financing and justification have been addressed.

Capital projects are different from operating budgets, as they often represent large financial commitments that may last several fiscal cycles. The CIP is prepared with the following elements:

- Identifying needs, utilizing comprehensive plans, strategic plans, goal-setting and public input;
- Determining the specific projects or equipment items for repair, maintenance, replacement or new acquisition / construction;
- Recognizing the revenue sources that need to be utilized to finance the planned projects;
- Projecting need for future debt issuance and the ability to plan for the issuance.

## Process

The CIP is a planning document that can be revised at any time. At a minimum, it is updated on an annual basis to ensure that the Plan reflects the most current proposed projects and projected financial resources. Projects that are completed are removed from the plan and new projects are added. All projects are reviewed for current budget estimates and timing to ensure continuing feasibility and affordability.

All projects are ranked according to the following scale:

Priority 1: Imperative (Must-do) – Projects that cannot reasonably postponed in order to avoid harmful or otherwise undesirable consequences.

- a) Corrects a condition dangerous to public health or safety, or
- b) Satisfies a legal obligation, or
- c) Alleviates an emergency services disruption or deficiency, or
- d) Prevents irreparable damage to a valuable public facility

Priority 2: Essential (Should-do) – Projects that address clearly demonstrated needs or objectives.

- a) Rehabilitates or replaces on obsolete public facility or attachment thereto, or
- b) Stimulates economic growth and private capital investment, or
- c) Reduces future operating and maintenance costs, or
- d) Leverages available state or federal funding

Priority 3: Important (Could-do) – Projects that benefit the community but may be delayed without detrimental effects to basic service.

- a) Provides a new or expanded level of service, or
- b) Promotes intergovernmental cooperation, or
- c) Reduces energy consumption, or
- d) Enhances cultural or natural resources

Priority 4: Desirable (Other year) – Desirable projects that are not included within the five-year program because of funding limitation. These projects will not show within this document, but are held in reserve for future consideration.

Priority 5: Ongoing – Projects that are of an ongoing nature, either purchased / performed annually or on a regular schedule.

City of Rock Rapids, Iowa  
FY 2024-2028 Capital Improvement Program  
Policy Guidelines

1. Time Frame - Capital Improvement Program (CIP) budget shall consist of five years of proposed projects. The first year of the CIP will be included in the adoption of the annual budget.
2. Items to be included in the CIP - Any item or capital project with an estimated useful life of five years or more and an estimated cost of \$25,000 or more.
3. Citizen Participation - Pursuant to Section 384.15(3) of the Code of Iowa, the City shall conduct a public hearing prior to the adoption of a Capital Improvement Program.
4. Consistency with General Plan - Prior to adoption of the annual budget, the City Planning and Zoning Commission shall review the CIP for conformance with the general plan for development of the City as a whole.
5. Operation and Maintenance Priorities - Expenditures should be concentrated on renovating and maintaining existing facilities to preserve prior community investment and where possible, to reduce maintenance and operating costs. In prioritizing projects among fiscal years, the highest priority should be given to projects which protect the health and safety of the citizens, maintain or improve the ability of the City to support economic activity, sustain the City's infrastructure and lead to an operating budget savings. Projects which have the highest probability of future construction cost increases or which reduce the City's potential liability should be considered first.
6. Unbudgeted Capital Improvement Projects - The City's policy maintains that no capital project should be presented to the Council which has not previously been programmed in the CIP. Exceptions to this policy include economic development projects, compliance issues or emergency projects that arise during the fiscal year.
7. Economic Development - Capital improvement projects shall be used to encourage economic development.
8. New Facilities - Facilities whose construction would result in new or substantially increased operating costs will be considered only when their necessity has been demonstrated and when operating cost estimates and plans for these operating costs have been developed.
9. Debt Capacity Reserve - The City strives to maintain general obligation bonding reserve of at least 25 percent of the constitutional capacity as stated in Article XI, Section 3 of the Constitution of the State of Iowa.
10. Debt Financing - The City will confine long-term borrowing to capital improvements or projects which cannot be financed from current revenues. Projects financed by issuing bonds will be paid back within a period not to exceed the expected useful life of the project.

**Description:** Replacement of existing East Street Bridge over Tom Creek with new Continuous Concrete Slab Bridge.

**Justification:** Existing bridge was built in 1956 and is structurally deficient with estimated remaining life of two years.

**CIP Comments:** This project is funded in part by a federal grant of \$1 million plus major participation by Lyon County and is not assessable to abutting property owners.

**Effect on Operating Budget:** Positive effect on operating budget by eliminating the need for patching of asphalt surface.

**Relationship to Strategic Plan:** Consistent with specific goal of replacing asphalt with concrete.

**Scoring Matrix:**

Strategic Plan	2	Public Benefit	1	Econ Development	0
Mandates	2	Coordination	0	Feasibility	1

**Description:** New street construction, consisting of extending South Bradley Street southwestward toward Davis Street.

**Justification:** Would facilitate development of residential housing in vicinity of new Hospital, which would help to alleviate current housing shortage.

**CIP Comments:** This will be an Urban Renewal project and not assessable to abutting property owners.

**Effect on Operating Budget:** Some positive effect on operating budget by eliminating dead-ended streets that require extra time during snow removal operations. These savings offset by more street to maintain.

**Relationship to Strategic Plan:** Project is consistent with strategic and comprehensive plans but not specifically identified.

**Scoring Matrix:**

**Description:** Add an additional 36' x 120' to the fire station that was built in 1970.

**Justification:** New equipment is engineered larger than what our fire station was designed for in 1970. The expansion would allow for a larger meeting/training room, large trucks, and could house additional city equipment.

**CIP Comments:** Expansion of this item is covered by General Obligation Capital Loan Notes and LCRF Grant.

**Effect on Operating Budget:** Increase in utility charges due to added floor space.

**Relationship to Strategic Plan:** The City acquired two blighted properties in 2021 in order to provide space for future expansion.

Purchase of Equipment	\$ -	\$ -	\$ 40,000	\$ -	\$ -
Total Expenditures	\$ -	\$ -	\$ 40,000	\$ -	\$ -

**Description:** Replace 2006 Case Roller DV201.

**Justification:** Equipment to be replaced is 20 years old and requires increasingly frequent repair; Needed for street repair.

**CIP Comments:** Purchase of this item is covered by annual transfer from operating funds into equipment reserve fund.

**Effect on Operating Budget:** Minimal decrease in operating costs due to reduction in maintenance and repair needed for newer equipment.

**Relationship to Strategic Plan:** Consistent but not specifically identified.

**Scoring Matrix:**
